HATE.

Don't let it be invisible –
always report hate crimes.

Reporting hate crime.

Every year, hundreds of people in Warwickshire are affected by hate crime.

Experiencing hate crime can be frightening because you have been targeted because of who you are, or what your attacker thinks you are.

Hate crime could include property damage, assault, theft, verbal abuse, harrassment or online abuse.

Nobody should have to live with the fear and anxiety that they cause.

It can also affect other people in your community, especially if they are seen to be part of the same group as you.

When you report a hate crime or incident you will be taken seriously. All reports will receive a response.

No one should suffer because of who they are.

Never tolerate it.
Always report it.

Report a crime – 101
Report an emergency – 999
