Community Conference

Life Church, Bulkington Road,
Bedworth, Warwickshire, CV12 9DG

Saturday 20 October
10:00 – 15:30

This event is for anyone who lives or works in Warwickshire. We want to come together to fight hate in our communities, to embrace our differences and to promote cohesion.

Hate crime is a widely unreported problem as victims don't always think a crime has been committed. This event will aim to provide a greater understanding about what constitutes hate crime and how it can be reported within Warwickshire.

The conference objectives:

- Raise awareness and reinforce messages about hate crime and the importance of reporting.
- Encourage communities to speak out against hate and report incidents.
- Empower and inspire people to be actively involved in combating hate within their own community.
- Update communities about the work being undertaken in Warwickshire by Partners (You said, We did) and obtain ideas about new areas of work.

The conference format will be a mixture of presentations and more interactive sessions including the

opportunity to take part in a creative art project and an African Drumming workshop. Speakers include:

- Trish Adudu - BBC TV and Radio Presenter
- Dan Biddle - 7/7 Bombing Survivor
- Sylvia Lancaster OBE - Founder of the Sophie Lancaster Foundation

There will be stalls and displays from organisations that can offer support and help to people who have experienced prejudice including Victim Support, Tell Mama, Remembering Srebrenica and EQuIP.

Spaces at the conference are limited and you need to register your interest in advance of the event. Follow the link below to book your FREE ticket now.

A buffet lunch will be provided.

Car parking is free.

Families are welcome at this event.
